By Shaun R. McCann : From Herodotus to HIV: A history of haematology (Oxford Medical Histories) From Herodotus to HIV: A history of haematology (Oxford Medical Histories):

Blood has long been an object of intrigue for many of the world's philosophers and physicians and references to it have existed since the earliest studies of human anatomy. Herodotus of Halicarnassus, whose writings 500 years before the birth of Christ drew on stories collected during his widespread travels, was amongst the first to identify the ritualistic and medical significance of blood. However, despite this long-established history, haematology as a medical speciality
