By Gary Moore, Gavin Knight, Andrew Blann : Haematology (Fundamentals of Biomedical Science) the uts handbook is the authoritative source of information on approved courses and subjects offered at university of technology sydney bsc biomedical science the new name for our highly successful bmedsc medical science course explores the science of the human body and the causes of Haematology (Fundamentals of Biomedical Science):

Biomedical scientists are the foundation of modern healthcare from cancer screening to diagnosing HIV from blood transfusion for surgery to food poisoning and infection control Without biomedical scientists the diagnosis of disease

the evaluation of the effectiveness of treatment and research into the causes and cures of disease would not be possible
The Fundamentals of Biomedical Science series has been written to reflect the challenges of practice
