**By Tsieh Sun : Atlas of Hematologic Neoplasms** unbalanced whole arm translocation der1;13 in hematologic malignancies authors adriana zamecnikova soad al bahar published in atlas i17q solely in myeloid malignancies authors chrystle bilhou nabera published in atlas genet cytogenet oncol haematol Atlas of Hematologic Neoplasms:

0 of 0 review helpful Great book to learn heme for path residents because they By Felicity O Great book to learn heme for path residents because they are case presentations and great explanations for why it can t be other diagnoses The pictures were pretty good but could be clearer with more accurate colors Due to its rapid development in recent years

hematopathology has become a very complicated discipline The current development is mainly in two aspects the new classification of lymphomas and leukemias and the new techniques The Revised European American Classification of Lymphoid Neoplasms REAL classification and the World Health Organization WHO classification of hematologic neoplasms require not only morphologic criteria but also immunophenotyping and From the reviews Exactly as the title states this is an atlas of hematologic neoplasms hellip Intended for lsquo young rsquo hematopathologists and surgical pathologists this atlas also would be of great interest to laboratory medicine and or patho
