**By Kathy D. Blaney MS BB(ASCP)SBB, Paula R. Howard MS MT(ASCP)SBB : Basic and Applied Concepts of Immunohematology** clinical laboratory technology degree offered at the following campus vidalia; program overview the clinical laboratory technology associate degree program is a 5 year program with one year of pre medical university level courses in the sciences and humanities for designed for the rigors of md program curriculum Basic and Applied Concepts of Immunohematology:

10 of 11 review helpful Good book but there are serious typographical errors By Anita Wells I purchased this book at an ASCP bloodbanking workshop given by the author because it seems to be a goodbook for the technologist who wants to brush up on bloodbanking skills or expand knowlege and understanding of blood banking concepts as applied

in a clinical laboratory However on pg 165 in panel 7 3 cell 4 is BASIC AND APPLIED CONCEPTS OF IMMUNOHEMATOLOGY clearly addresses the fundamental knowledge and skills necessary in an entry level blood banking book This introductory level textbook prepares the reader for the practicing laboratory by adequately integrating basic theory genetics immunology and immunohematology with a special emphasis on the application of theory to modern transfusion and blood bank settings This textbook delivers basic ideas supplemented with practi
