From Erber Wendy N : Diagnostic Techniques in Hematological Malignancies (Cambridge Medicine (Hardcover)) Diagnostic Techniques in Hematological Malignancies (Cambridge Medicine (Hardcover)):

The diagnosis and monitoring of hematological malignancies is complex and requires a systematic approach Morphology cell phenotyping cytogenetics and molecular genetics are essential and the results must be integrated

Diagnostic Techniques in Hematological Malignancies details the principles and applications of each of these test types in the diagnosis of hematological malignancies in blood and bone marrow The first section describes the test modalities including About the Author Wendy N Erber MD DPhil FRCPA FRCPath is Consultant Haematologist and Clinical Director of Haematology Addenbrooke s Hospital Cambridge UK
