23 of 23 review helpful The current Gold Standard By A Customer Riding on the success of the landmark book

Hodgkin's Disease Mauch et al compile the current standard reference in Non Hodgkin's Lymphomas NHL. With articles by experts from around the world in their fields this book is a valuable reference in all aspects of lymphoma diagnosis, treatment and late effects. As NHL is actually many different forms of cancer. This definitive textbook on the biology, diagnosis, staging and treatment of all forms of non Hodgkin's lymphomas reflects an international multidisciplinary approach to the topic. The editors and contributors have backgrounds in medical and radiation oncology, pathology and molecular biology. The text offers complete coverage of the subject matter with a blend of basic science and clinical aspects. Each disease is approached consistently with coverage of pathology. From The New England Journal of Medicine. Consistency is the last refuge of the unimaginative. Oscar Wilde. Astonishing progress has been made over the past few years in our understanding of the pathogenesis and biology of non Hodgkin's lymphomas and many ne
