3 of 4 review helpful spine fellow By rehab resident I just got this book and so far so good I especially like the chapter on radiologic imaging of the spine It does a good job of explaining what the strengths and weaknesses are of different studies such as fast spin echo vs gradient echo MRI I think the pharmacologic chapters are pretty good although I think an anesthesia based book such as Benzon gives more detail As many as 80 of patients will suffer from back pain at some point in their lifetime It is the most common form of disability and the second largest cause of work absenteeism An early proactive management approach offers the best route to minimizing these conditions Renowned authority Curtis W Slipman MD and a team of multidisciplinary authorities present you with expert guidance on today

s best non surgical management methods equipping you with the knowledge yo It is significantly more comprehensive than any other available book in this field Doody Enterprises 2008 Interventional Spine is timely and may be the single best definitive resource for physicians who specialize in the nonsurgical treatment of
