By Barbara J. Bain, Rajeev Gupta : A - Z of Haematology the riqas haematology eqa programme is designed to monitor the performance of 12 haematology parameters haematology is a speciality covering the diagnosis and treatment of blood disorders including leukaemia anaemia sickle cell disease and myeloma A - Z of Haematology:

0 of 0 review helpful Pictures please By Michael Czajka Jr This is a dictionary of haematology and they should change the name to include the word Dictionary I almost didn't buy it because I couldn't work out if it was a dictionary or not Apparently Barbara Bain is the guru of haematology so it's surprising she put out a book with so few photos How can you have a book on haematology without almost an A-Z of Haematology provides an essential quick reference guide to definitions covering the entire spectrum of haematology from blood transfusion and coagulation through to recent advances in molecular haematology It is the indispensable guide for all those practising or studying haematology including research scientists and biomedical scientists working in diagnostic laboratories Scientists working in cytogenetics and immuno Very little of substance is missing in this remarkable book We suspect that it will be dog eared and worn with good use in any laboratory or clinic British Journal of Haematology A great little book that will help
