By G. Germann, R. Sherman, L.S. Levin : Decision-Making in Reconstructive Surgery: Upper Extremity 1 scott levin md is chair of the department of orthopedic surgery at penn medicine and director of the hand transplant program at childrens hospital of plastic surgery henderson nv cosmetic surgery las vegas cosmetic surgery henderson nv
Decision-Making in Reconstructive Surgery: Upper Extremity:

A new approach to methodical and strategic thinking about tissue reconstruction All the decision making processes are broken down into algorithms based on the authors clinical experience and the current literature The atlas section describes the 25 most frequently used flaps and shows them in standardised graphic form along with many practical tips and tricks New here is the inclusion in the illustrations of practical suggestions for the surgeon as well as rehabili
