0 of 0 review helpful Unfortunately I was unsatisfied with the photos of the cells in this Atlas By Dr James Manos The book is nice however I was disappointed with the photos in which the cells were not so clear So I was disappointed

with this book regarding the fact that I bought it as a hematology Atlas 0 of 0 review helpful Four Stars By W Roquiz Excellent This full colour atlas is a comprehensive reference on hematology and related pathological features depicting its diagnostic aspects Presents an excitingly curious study on why the architecture of cell changes and behaves differently while taking a new form It has a strong focus on the clinical aspects Covers depiction of newborns anemia pathology of LHC spleen bone marrow leukemia myelodysplastic syndrome Emphasis is on rigorous testing methods and procedures
